

Pontifical Catholic University of Paraná and commitment to Water Justice

- 39 thousand students (with distance learning)1,500 teachers7 Schools (Fine Arts; Law; Education and Humanities; Medicine; Business; Polytechnic66 Undergraduate Courses16 Postgraduate degrees (Masters and doctorate)

2 artesian wells:
don't buy water
for the life in the
campus

- Water for 25 thousand people, 35 restaurants, 75 bathrooms; 230 toilets, around 100 drinking fountains
- – daily maintenance by a company specialized in artesian wells (chlorine, pipe leaks, sensor in the Water Tank that identifies possible abrupt variations in consumption, maintenance needs, etc.
- - Water tanks cleaned every 6 months

PUCPR - member of Ecumenical Water Network – Brasil (2021)

- *Water is a divine gift*: as a gift, water has the dimension of gratuitousness X economic projects
- *Water is a human right*: as a gift, good water is also an irrevocable right of every human being, a vital condition for their existence
- *Water is a common good*: for which reason it cannot be subjugated, appropriated and controlled by private and economic interests.

Action plan on the Belem River
Belem River (21Km extension in
the City of Curitiba) and passes
next to the university

Reception of Certificate “Blue University” – Popayán (Colômbia), 26/09/2023

Delivery of the certificate to the academic community and to the Rector of PUCPR - Brother Rogério Mateucci

The future...

To create the Water Forum to plan actions on the principles of a Blue University

- Affirm public water management
- Do not sell water on the university campus
- Do not have water in plastic bottles
